

## RESPITE CARE SERVICES

24 Hour Home Care's Community Supports CalAIM program gives Medi-Cal members additional access to care by offering respite services. This allows a secondary caregiver to temporarily assume care duties, providing primary caregivers the flexibility to take time for themselves.

### Reasons to Use Respite Care:

Helps prevent caregiver burnout and anxiety

Keeps member at home while the primary caregiver takes a break

Respite Care reduces caregiver fatigue by 24%

### Service Requirements:

- Respite hours are capped at 336 hours annually
- Respite Services, in combination with any direct care services the client is receiving, may not exceed 24 hours of care per day
- Clients can utilize Respite Care hours in addition to any Personal Care and Homemaker hours they are authorized for

### Eligibility Requirements:

- No IHSS connection required
- Client requires caregiver relief to avoid institutional placement such as hospital stays, group home, or assisted living

### Why Choose 24 Hour Home Care:

Health Access & Equity

Effortless Experience

Empowering Individuals & Families

Person Centered
